Note: My plan is to videotape quartets and choruses the same way that I do at the IC&C. So this means, that for a quartet, I am framing the entire quartet and I do not touch the camera. For a lively chorus song, you would see the entire chorus and again, I do not touch the camera. For a slower chorus song, on the other hand, I would gradually move in for medium shots and aim to finish on a wide shot of the entire chorus.

If you would like something different, please write a note to me below. For instance, if your quartet plans on a staged performance, other than the standard formation, let me know. Maybe your chorus will do something unexpected.
